

## **We are living in, with and of the region.**

Sustainability and the responsible use of our regional resources are important to us - both in the design of our house as well as in the selection of our products.

We cook fresh and use predominantly local products. For the fresh food preparation and the use of regional products we have been awarded the AMA Gastro Seal.

Under the slogan "the good is so close" we attach great importance to domestic quality.

Therefore, the majority of our suppliers come from the radius of 100 km. The close cooperation with farmers, food manufacturers and dealers from the environment not only increases the value creation in the region, but also sets a strong sign against the globalized unity taste on a plate.

If you have any questions about allergies or food intolerances, our service and kitchen team will be happy to provide with more information!
